

COMPANY'S POLICY

ENVIRONNEMENT
SÉCURITÉ
AÉROPORTUAIRE

Founded in 1990, BTEE SA - based in Valais, in the heart of the Alps - is a specialized company which carries out issues related to environmental engineering, ecological technology, security and airport.
Our international reach and our different operating sites contribute to the influence of Switzerland.

Our vision

Based on its wealth of experience and skills, BTEE SA offers high-level multidisciplinary services, tailor-made, in line with specific needs of its customers.

Our missions

- To create and propose value-added workstations
- To give satisfaction to our customers with high quality services
- To innovate and provide added value to our customers
- To support the local economy in relation to the locations and regions where we develop our activities.

OUR COMMITMENT

IN TERMS OF ENVIRONMENT

"Tomorrow's flowers are in today's seeds", BTEE SA doesn't forget it.

IN TERMS OF QUALITY

Our best satisfaction is that of the customer.

IN TERMS OF SECURITY

The respect of men and goods : a priority of our security concept.

TO RESPECT

the time limits, the definite costs, the legal requirements and equity between collaborators.

TO ANTICIPATE

the environmental risks and impacts.	the evolution of the need for the customers in order to find solutions to satisfy them.	the risks of accident and to guarantee the physical integrity and the protection of goods.
the minimization of our environmental impacts and those of our suppliers and subcontractors.	the contacts with the customers, the continuity and the duration of business relationship.	human contacts and conviviality between collaborators and customers.
the pollution risks, the use of natural ressources and the management of the waste induced by our activites.	the processes and the commitment of each collaborator to respect the intergrated management system.	negative effects on people, animals, goods and environment.
the making our collaborators, our suppliers and our customers aware of their responsibility concerning the respect of environment, quality and safety.	an adequate management of files and the production of high quality documents.	a training for our collaborators adapted to the risks caused by our activities.

TO GAIN

the loyalty of our customers and our collaborators, setting up a dynamic and pluridisciplinary team made up by individuals with different backgrounds.

TO PROMOTE

the environmental management of construction sites and their implementation.	the multidisciplinary aspect of our collaborators and activities.	the reflexes of the collaborators to adopt in emergency situation.
new solutions to preserve environment.	the discussion with our customers and our suppliers while taking their needs into account.	appropriate measures to limit the risk of accident in the carrying out of our services.

TO TAKE

the necessary steps to inforce the principles mentioned above in the respect of the criterias for a sustainable development.

TO COMMIT

ourselves to improve the performances in terms of environment, quality and security.

TO SUPPORT AND FINANCE

with specific projects, the areas of professional training and under privileged children's aid.
BTEE SA is committed socially and sustainably in countries where it develops its activites,
to allows a response to the present needs without compromising the ability of future generations to meet their needs

The direction and the collaborators of BTEE SA support by their voluntary and financial commitment, institutions in the fields of environment, social and the humanitarian aid.
